

Vitro PRO™

vs. Other Endocavity Guides

CIVCO's endocavity guides are now MEA and Endotoxin (LAL) tested for IVF oocyte retrievals, ensuring that our guides are **safe from harmful endotoxins**.

You could not only **improve your clinic's success rates**, but also reassure new and existing patients that your clinic strives to deliver **the best and safest patient experience**.

Confident Outcomes

The only endocavity guide on the market that has gone through rigorous MEA and Endotoxin testing to ensure safety and confident outcomes for you and your patients.*

Accurate Needle Placement

Allows for simple and fast needle placement.
